AERIAL PHOTOS

Facility Layout

4 STAGES UNDER ONE ROOF

Backlot 2 at the edge of the town of Milin. With several unique features which NO other studios have:

1

Extremely quiet and large. Surrounded by three types of forests (see photos below next slide)

2

360-degree clear span without any sign of civilization (see photos next slide)

3

1 + foot sunken paved road with various foliage foreground running parallel with a field road in various distances from 6 feet to 200 feet. Ideal for chases or drive by's (modern or historic) filmed from either side.

This runs about 1/4 mile. Due to the fact that the paved road is sunken, it is NOT visible while shooting from the filed direction. The sunken road is visible to the right side of this satellite picture.

By changing directions and lenses this has "an infinite" distance. Backlot 2 is not included in the rate card. The rental fee is \$ 80 dollars a day.

Panorama of Backlot 2 facing south

(sunken chase road is in the tree line to the left)

Panorama Backlot 2 facing North

(sunken chase road is to the right in the tree line) filled road is visible just center right.

INTERIORS

Covid 19 precaution

- ✓ Due to COVID 19 concerns, BCFS has taken precautions to ensure the safety of all Cast, Crew and Production personnel.
- ✓ These precautions include COVID testing and isolation procedures for all production personnel prior to production.
- ✓ BCFS is uniquely located to offer natural isolation from city influences.
- ✓ The studio facility is situated only 30 mins outside Prague's DT core, but this offers a natural barrier against possible infection. All personal are tested prior to reporting for work and are isolated during the entire shoot.
- ✓ Hotels for Cast and Crew are located outside the city bubble, within minutes of the studio facility and again offers, natural isolation for the protection of all.

Additional informations

BCFS HAS A UNIQUE LOCATION, AND IS ONLY 30 MINS FROM THE DT CORE OF PRAGUE CENTRAL.

In many cases travel time is less than working through the busy streets of Prague and yet offers full facilities.

The studio also boasts excellent sound proofing and has the ability to manage sizable pyrotechnics because of its construction. It also has an 8,000 gallon water tank fitted with optical glass for filming. 25' ceilings allow for a wide range of lighting grids.

Production, wardrobe, props and equipment offices are all on site with direct access to the stages.

Significant parking is available and direct access to the backlot surrounds the facility.

Accommodations are readily available, a 5 Star Hotel for ATL is only 8 mins from set, as well as BTL Hotel next to the facility.
